That the Abe Bernstein Clothing, Inc., shall maintain in effect during the entire period of this license the following insurance for the protection of the City of Pittsburgh, all premiums being at the expense of the licensee, which insurance shall be non-cancellable except upon thirty (30) days written notice to said City and which insurance shall cover and name said City as an additional insured:

Bonds shall be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). Except as provided in paragraph (vii) below, all of the Bonds shall be registered in the name of Cede & Co., as nominee of DTC; provided that if DTC shall request that the Bonds be registered in the name of a different nominee, the Paying Agent shall exchange all or any portion of the bonds for an equal aggregate principal amount of Bonds registered in the name of such nominee or nominees of DTC. No person other than DTC or its nominee shall be entitled to receive from the City or the paying Agent either a Bond or any other evidence of ownership of the Bonds, or any right to receive any payment in respect thereof unless DTC or its nominee shall transfer record ownership all or any portions of the Bonds on the Bond Register (as such term is defined in Section 7 thereof), in connection with discontinuing the book entry system as provided in paragraph (vii) below or otherwise.

(ii) So long as the Bonds or any portion thereof are registered in the name of DTC or any nominee thereof, all payments of the principal or redemption price of or interest on such Bonds shall be made to DTC or its nominee in immediately available funds on the dates provided for such payments in this Resolution. Each such payment to DTC or its nominee shall be valid and effective to discharge fully all liability of the City or the Paying Agent with respect to the principal or or redemption price of or interest on the Bonds to the extent of the sum or sums so paid. In the event of the redemption of less than all of the Bonds outstanding of any maturity, the Paying Agent shall not require surrender by DTC or its nominee of the Bonds so redeemed, but DTC (or its nominee) may retain such Bonds and make an appropriate notation on the Bond certificate as to the amount of such partial redemption; provided that DTC shall deliver to the Paying Agent, upon request, a written confirmation of such partial redemption and thereafter the records maintained by the Paying Agent shall be conclusive as to the amount of the Bonds of such maturity which have been redeemed.

(iii) The City and the Paying Agent may treat DTC (or its nominee) as the sole and exclusive owner of the Bonds registered in its name for the purposes of payment of the principal or redemption price of or interest on the Bonds, selecting the Bonds or portions thereof to be redeemed, giving any notice permitted or required to be given to Registered Owners under this Resolution, registering the transfer of Bonds, obtaining any consent or other action to be taken by Registered Owners and for all other purposes whatsoever; and neither the City nor the Paying Agent shall be affected by any notice to the contrary. Neither the City nor the Paying Agent shall have any responsibility or obligation to any participant in DTC, any person claiming a beneficial ownership interest in the Bonds under or through DTC or any such participant, or any other person which is not shown on the Register as being Registered Owner, with respect to either: (1) the Bonds; or (2) the accuracy of any records maintained by DTC or any such participant; or (3) the payment by DTC or any such participant of any amount in respect of the principal or redemption price of or interest on the Bonds; or (4) any notice which is permitted or required to be given to Registered Owners under this Resolution; or (5) the selection by DTC or any such participant of any person to receive payment in the event of a partial redemption of the Bonds; or (6) any consent given or other action taken by DTC as Registered Owner.

(iv) So long as the Bonds or any portion thereof are registered in the name of DTC or any nominee thereof, all notices required or permitted to be

given to the Registered Owners under this Resolution shall be given to DTC as provided in the representation letter to be delivered to DTC, in form and content satisfactory to DTC and the City, which the Director of Finance is hereby authorized to execute.

(v) In connection with any notice or other communication to be provided to Registered Owners pursuant to this Resolution by the City or the Paying Agent with respect to any consent or other action to be taken by Registered Owners, DTC shall consider the date of receipt of notice requesting such consent or other action as the record date for such consent or other action, provided that the City or the Paying Agent may establish a special record date for such consent or other action. The City or the Paying Agent shall give DTC notice of such special record date not less than fifteen (15) calendar days in advance of such special record date to the extent possible.

(vi) Any successor Paying Agent shall, in its written acceptance of its duties under this Resolution, agree to take any actions necessary from time to time to comply with the requirements of the representation letter.

(vii) The book-entry system for registration of the ownership of the Bonds may be discontinued at any time if either: (1) after notice to the City and the Paying Agent, DTC determines to resign as securities depository for the Bonds; or (2) after notice to DTC and the Paying Agent, the City determines that a continuation of the system of book-entry transfers through DTC (or through a successor securities depository is not in the best interest of the City. In either of such events (unless in the case described in clause (2) above, the City appoints a successor securities depository), the Bonds shall be delivered in registered certificate form to such persons, and in such maturities and principal amounts, as may be designated by DTC, but without any liability on the part of the City or the Paying Agent for the accuracy of such designation. Whenever DTC request the City and the Paying Agent to do so, the City and the Paying Agent shall cooperate with DTC in taking appropriate action after reasonable notice to arrange for another securities depository to maintain custody of certificates evidencing the Bonds.

SECTION 7. Bond Register, Registrations and Transfer.

The City shall cause to be kept at the office of the City Treasurer or at the principal corporate trust office of any Paying Agent other than the City a register ("Bond Register") in which, subject to such reasonable regulations as it may prescribe, the City shall provide for the registration of Bonds and the registration of transfers and exchange of Bonds. No transfer or exchange of any Bond shall be valid unless made at such office and registered in the Bond Register.

Upon surrender of any Bond for registration of transfer, the City shall execute and the Paying Agent shall authenticate and deliver in the name of the transferee or transferees, a new Bond or Bonds of any authorized denomination, of the same interest rate and maturity, and in the same aggregate principal amount as the Bond so surrendered.

Any Bond shall be exchangeable for other Bonds of the same maturity and interest rate in any authorized denomination, in an aggregate principal amount equal to the principal amount of the Bond or Bonds presented for exchange. Upon surrender of any Bond for exchange, the City shall execute and the Paying

Agent shall authenticate and deliver in exchange therefor the Bond or Bonds which the owner making the exchange shall be entitled to receive.

Each Bond issued upon any registration of transfer or exchange shall be a valid obligation of the City, evidencing the same debt and entitled to the same benefits under this Resolution as the Bond surrendered for such registration of transfer or exchange.

Every Bond presented or surrendered for registration of transfer or exchange shall be duly endorsed, or be accompanied by a written instrument of transfer, in form and with guaranty of signature satisfactory to the City and the Registrar, duly executed by the Registered owner thereof or his duly authorized agent or legal representative.

No service charge shall be made for any transfer or exchange of any Bond, but the City may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any transfer or exchange of Bonds.

The City shall not be required to: (a) issue, or register the transfer or exchange of, any Bond during a period of fifteen (15) business days before any date of selection of Bonds to be redeemed; or (b) register the transfer or exchange of any Bond after it has been selected for redemption.

SECTION 8. Execution and Authentication.

The Bonds shall be executed on behalf of the City by the Mayor, and shall have the corporate seal of the City or a facsimile thereof affixed thereto, duly attested by the Director of Finance and countersigned by the City Controller and said officers are hereby authorized and directed to execute the Bonds. The Bonds shall be authenticated by the manual execution of the Certificate of Authentication by the City Treasurer or by a duly authorized officer of the Paying Agent if the City is not the Paying Agent. No Bond shall be valid until such Certificate of Authentication shall have been duly executed and such authentication shall be conclusive and the only proof that any Bond has been issued pursuant to this Resolution and is entitled to any benefits conferred thereon under the provisions of this Resolution. To the extent that any one signature on a Bond (including the signature of the officer of the Paying Agent) is manual, all other signatures may be by facsimile. The Director of Finance is hereby authorized and directed to deliver the Bonds to the Purchaser and receive payment therefor on behalf of the City after sale of the same in the manner required by law and this Resolution.

SECTION 9. General Obligation Covenant.

The Bonds are hereby declared to be general obligations of the City. The City hereby covenants with the Registered Owners from time to time of the Bonds outstanding pursuant to the Resolution that it will include the amount of the debt service as specified in this Section on the Bonds for each fiscal year in which such sums are payable, in its budget for that year, will appropriate such amounts for such payments and will duly and punctually pay or cause to be paid the principal of the Bonds and the interest thereon the dates, at the places and in the manner stated therein, according to the true intent and meaning thereof, and for such budgeting, appropriation and payment, the City does hereby pledge its full faith, credit and taxing power. If the City shall have duly given notice of redemption and shall have deposited with the Sinking Fund Depositary funds for the payment of the redemption price of the Bonds so called for redemption, with accrued interest thereon to the date fixed for redemption, interest on such Bonds shall cease to accrue after such redemption date.

(d) CUSIP Numbers. Notices of redemption shall contain the applicable CUSIP numbers pertaining to the Bonds called for redemption (if then generally in use), and shall also contain the serial identification numbers printed on the Bonds.

The City shall receive credit against such deposit for the face amount of the Bonds so delivered, provided that such Bonds are delivered to and received by the Sinking Fund Depository (i) on or before the maturity date of the Bonds for which credit is requested, in case of a deposit required for the payment of Bonds at maturity, or (ii) in the case of a deposit required to be made on a Mandatory Redemption Date, no later than forty-five (45) days prior to the Mandatory Redemption Date for which credit is requested.

(c) Application of Funds. The Series of 1993A Bonds Sinking Fund shall be kept as a separate account at the principal corporate trust office of the Sinking Fund Depository. The Sinking Fund Depository, without further authorization other than as herein contained, shall transfer the moneys in the Series of 1993A Bonds Sinking Fund to the Paying Agent, the Paying Agent shall pay the interest on the Bonds as and when due to the Registered Owners on the appropriate Record Date and the principal, as and when the same shall become due, to the Registered Owners thereof, upon presentation and surrender.

Therefore, the maturities of the Bonds are in accordance with Section 602 and 1103 of the Debt Act.

SECTION 14. Internal Revenue Code Covenants.

(a) General. The City hereby covenants with the Registered Owners, from time to time, of the Bonds that no part of the proceeds of the Bonds will be used, at any time, directly or indirectly, in a manner which, if such use had been reasonably expected on the date of issuance of the Bonds, would have caused the Bonds to be arbitrage bonds within the meaning of Section 148 of the Internal Revenue Code of 1986 ("Code") and the Regulations thereunder proposed or in effect at the time of such use and applicable to the Bonds, and that it will comply with the requirements of that section and the Regulations throughout the term of the Bonds.

The City covenants that it will rebate to the U.S. Treasury, at the times, in the manner and to the extent required by the Code, all investment income derived from the investment of the proceeds of the Bonds in an amount which exceeds the amount which would have been derived from the investment of the proceeds of the Bonds at a yield not in excess of the yield on the Bonds.

(b) The Escrow Agreement (the "Escrow Agreement") between the City and Mellon Bank, N.A., or, at the option of the City, the Sinking Fund Depository for the Prior Bonds, as Escrow Agent (the "Escrow Agent") presented to this meeting is hereby approved and the Mayor, the Controller and the Director of the Department of Finance are hereby authorized to execute that agreement with such changes therein as they may approve, such approval to be conclusively evidenced by their execution thereof, and the City Clerk is authorized to affix the seal of the City thereto and to attest the same and any officer is authorized to deliver that agreement to the Escrow Agent. A legend indicating the existence of such a policy shall be printed on the Bonds in the form required by the Bond Insurer. In order to have accrued interest paid by the Purchaser excluded from the calculation of the premium, the City agrees to cause the amount paid as accrued interest to be invested, to the extent required by the Bond Insurer, in direct obligations of the United States of America and maintained in the Series of 1993A Bonds Sinking Fund until applied to the first interest payment on the Bonds. The Bonds have been issued for the purpose of obtaining funds to pay the costs of a refunding project.

Interest payable on any interest payment date will be paid to the person in whose name this Bond is registered (the "Record Owner") at the close of business on the February 15 or August 15 (the "Regular Record Date") immediately preceding the relevant interest payment date. Any such interest which is not deposited with the Paying Agent on or before any interest payment date for payment to the Record Owner on the Regular Record Date shall forthwith cease to be payable to the Record Owner on the Regular Record Date, and shall be paid to the person in whose name this Bond is registered on a special record date for the payment of such defaulted interest to be fixed by the Paying Agent, notice of which shall be given to all registered owners not less than ten (10) days prior to such special record date.

The Bonds maturing on September 1, 2014, are subject to mandatory redemption, in part, in the amounts stated in the Resolution, by lot within a maturity, prior to the stated maturity date, upon payment of the redemption price of 100% of the principal amount to be redeemed together with accrued interest to the date fixed for redemption on the dates and in the amounts set forth below:

2012	\$4,360,000
2013	\$4,595,000

The Bonds are not subject to optional redemption prior to their stated maturity.

If less than all Bonds maturing on any one date are to be redeemed at any time, the Bonds to be called for redemption at such time shall be chosen by the Paying Agent, by lot.

Notice of redemption of any Bond shall be given to the registered owner of such Bond by first class mail, not less than thirty (30) nor more than sixty (60) days prior to the redemption date, in the manner and upon the terms and conditions set forth in the Resolution. A portion of a Bond of a denomination larger than \$5,000 may be redeemed, and in such case, upon the surrender of such Bond, there shall be issued to the registered owner thereof, without charge therefor, a Bond or Bonds for the unredeemed balance of the principal amount of such Bond, all as more fully set forth in the Resolution. If notice of redemption shall have been duly given, the Bonds or portions thereof

specified in that notice shall become due and payable at the applicable redemption price on the redemption date designated in that notice, and if, on that redemption date, moneys are deposited with the Sinking Fund Depositary and transferred to the Paying Agent for the payment of the redemption price of the Bonds to be redeemed, together with interest to the redemption date, then from and after the redemption date, interest on such Bonds shall cease to accrue.

The City, pursuant to recommendation made by the Committee on Uniform Security Identification Procedures, has caused CUSIP number to be printed on the Bonds, and has directed the Paying Agent to use such numbers in notices of redemption and other notices, if any, as a convenience to the registered owners of the Bonds. No representation is made by the City as to the accuracy of such numbers either as printed on the Bonds or as contained in any notice and reliance may be placed only on the identification number printed hereon.

Subject to the provisions of this Bond and of the Resolution relating to payment of interest, the City and the Paying Agent may treat the Registered owner of this Bond as the absolute owner hereof, for all purposes, whether or not this Bond shall be overdue, and neither the City nor the Paying Agent shall be affected by any notice to the contrary.

It is hereby certified that the approval of the Department of Community Affairs of the Commonwealth of Pennsylvania for the City to issue and deliver this Bond has been duly given pursuant to the Act; that all acts, conditions and things required by the laws of the Commonwealth of Pennsylvania to exist, to have happened or to have been performed, precedent to or in the issuance of this bond or in the creation of the debt of which this Bond is evidence, exist, have happened and have been performed in regular and due form and manner as required by law; that this Bond, together with all other indebtedness of the City is within every debt and other limit prescribed by the Constitution and

No. 284. RESOLUTION approving a conditional use exception under Section 993.01(a)A(8)&(26) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to Allegheny General Hospital located at 320 East North Avenue for authorization to construct a two-story addition above the existing two-story Northwest Wing/Emergency Department and a three-level parking facility that includes a relocated helicopter landing area on property zoned "I-M" Institutional-Medical District, 22nd Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed hospital expansion located at 320 East North Avenue;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has

reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed hospital expansion located at 320 East North Avenue has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and
- C. That the establishment of the proposed use will impede the normal and orderly development and improvement of surrounding property for uses permitted in that district; and
- D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not

be provided; and

- E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and
- F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The proposed hospital expansion is on a site currently used for similar purposes and the heliport will be relocated to a site which has less impact on the surrounding neighborhood than the current location. In addition, the proposed parking and emergency room are modest additions to the current facility and do not represent a major change in use from the present facility.
- B. The proposed facility will not be injurious to the use and enjoyment of property in the immediate vicinity. The design of the new structures has appropriately addressed impacts on adjacent properties through substantial landscaping and an architectural design which mitigates the scale of the new structures on the surrounding residential

streets.

- C. The proposal will not affect the orderly development of the surrounding property. The property upon which the proposed building will be built is currently a surface parking lot and the proposed uses are the same as those which currently exist on the site.
- D. Utilities and other facilities have been found to have adequate capacity for the proposed project.
- E. Vehicular egress and ingress do not represent a substantial increase over the volumes which currently exist. The traffic study has determined that the project with the proposed volumes will not negatively impact traffic congestion in the area.
- F. In all other aspects the proposed facility does conform to all other applicable regulations of the "I-M" district which permits a hospital facility as a conditional use.

Section 3. Under the provisions of Section 993.01(a)A(8)&(26) of the Pittsburgh Code, approval is hereby granted to Allegheny General Hospital for authorization to construct a two-story addition above the existing two-story Northwest Wing/Emergency Department and a three-level parking facility that includes a relocated helicopter landing area, to be located on the existing campus of Allegheny General Hospital

at 320 East North Avenue on property zoned "I-M" Institutional-Medical District, 22nd Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 622 and accompanying drawings entitled "Northwest Wing Addition" filed by IKM, Inc. and supporting documentation submitted by Allegheny General Hospital which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, with the condition that a Final Traffic and Parking Study is submitted, reviewed and approved prior to the issuance of a Certificate of Occupancy for the project.

Capital Budget Revisions

Page	Project Name	Project Number	Revision/Correction	Old Controller's Number	New Controller's Number
CD FUNDING REDUCTIONS					
	The City received notice from HUD that our 1993 CD allocation was \$413,000 less than the amount budgeted by Council. To account for this the following three program reductions are scheduled to occur. Please be advised that the City anticipates receiving a substantial sum of extra CD funding in the coming months. These projects will be considered for inclusion at this time				
50	City-County Building Elevators	1015	Project will be funded through existing line items- \$50,000 of CD funds eliminated from the budget		
63	Neighborhood Improvement Program	1023	This program was reduced from \$500,000 to \$250,000 as part of Council's budget action. The current funding level was not sufficient to allow the program to proceed. \$250,000 in CD funds have been eliminated from this program in 1993		
90	Neigh Economic Development Investment Fund	260	Program has a backlog of prior authorizations. It is not anticipated that any loan commitments will be denied because of these funding reductions. 1993 CD funds reduced from \$800,000 to \$487,000 - a \$113,000 reduction.

No. 681. RESOLUTION approving a conditional use exception under Section 993.01(a)A(9) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to Duquesne University for authorization to excavate 22,000 cubic yards and construct an athletic field and associated minor structures along Bluff Street, and to construct a 349-space parking deck on existing parking lots adjacent to the Physical Plant on Forbes Avenue and Gibbon Street, on property zoned "I-C" Institutional-Civic District, 1st Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed athletic

field and parking deck on the campus of Duquesne University located at 600 Forbes Avenue;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed athletic field and parking deck on the campus of Duquesne University located at 600 Forbes Avenue has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and

- C. That the establishment of the proposed use will impede the normal and orderly development and improvement of surrounding property for uses permitted in that district; and
- D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and
- E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and
- F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The proposed athletic field is located on the university campus on land currently occupied by surface parking. It is bordered on the south by Bluff Street, a university-owned street, and on the west, north, and east by university-owned property. Similarly, the proposed 349-space parking deck will be built on land currently occupied by surface parking and adjacent to an existing parking garage. It is

also bordered on all sides by university-owned property. Additionally, the university will install a 50 to 60 foot high netting between the light poles at the southern edge of the field to prevent balls from leaving the field area, and a portable batting cage will be in use at all times behind home base.

- B. Since the proposed uses are surrounded on all sides by university-owned property, no other private or public property values will be affected by the construction of the proposed projects.
- C. The proposed uses will be constructed on the university campus, an "I-C" Institutional-Civic District. They are part of the university's long range master plan and fit within the physical landscape of the campus. Therefore, construction of these uses will not affect the orderly development of the area.
- D. Utilities, access roads and other facilities have been found to have adequate capacity for the proposed uses.
- E. The athletic field will be accessed via Bluff Street and McAnulty Drive and the parking deck will be accessed via existing garage driveways on Locust Street and Forbes Avenue.
- F. Since the proposed uses are surrounded on all sides by university property, no setbacks are

required. In all other respects, the proposes uses conform to all other applicable regulations of the "I - C" Institutional-Civic District which permits an athletic field and a parking deck as conditional uses.

Section 3. Under the provisions of Section 993.01(a)A(9) of the Pittsburgh Code, approval is hereby granted to Duquesne University for authorization to excavate 22,000 cubic yards and construct an athletic field and associated minor structures along Bluff Street and to construct a 349-space parking deck on existing parking lots adjacent to the physical plant on Forbes Avenue and Gibbon Street, on property zoned "I-C" Institutional-Civic District, 1st Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 629 and accompanying drawings numbered SP-1 and A-1 through A-9 filed by Mulach Parking Structures Corporation and dated March 29, 1993, and drawings No. 1 dated March 4, 1993, Site Section dated March 12, 1993, L-2 dated March 15, 1993, and 5-year Master Site Plan dated March 20, 1993 by Gerard Nagar Associates which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, subject to the following conditions:

1. That prior to the issuance of a building permit for the 349-space parking deck, the following documents shall be

reviewed and approved by the Planning Commission:

- a. Final elevation drawings, floor plans, lighting plan, and signage plan for the 349-space parking deck.
 - b. Final landscaping plan for Forbes Avenue.
 - c. A Parking Management Plan, to include a signed lease agreement with Chatham Center, to accommodate the 127-space deficit parking spaces in September 1993 and during construction of the parking deck.
2. That prior to the issuance of a building permit for the athletic field, the applicant shall submit the following plans and documents to the Zoning Administrator for review and approval:
- a. A permit or permits from the local municipality granting permission to dump the fill at a location or locations within that municipality.
 - b. Final specifications and details of light structures for the athletic field, including a photometric printout of light levels on the field and adjacent roadways, which shall further be reviewed and approved by the Department of Public Works.

No. 862. Whereas, despite the end of the cold war era and despite the urgings of the United Nations General Assembly, the American Public Health Association, the World Health Organization and the United Council of Churches, the United States has maintained and even strengthened its embargo against Cuba; and

Whereas this Council earlier recognized the need to end the harshest embargo ever placed against any nation by declaring the week of July 11 - 19, 1993 to be United States - Cuba Friendship Week in the City of Pittsburgh; and

Whereas, as a result of the unjustified trade embargo and other unnecessary hostilities between the United States and Cuba, four hundred (400) international operators from American Telephone & Telegraph Company will be losing their jobs here in Pittsburgh; and

Whereas, the American people and the Cuban people are both suffering from a trade embargo which is one of the last vestiges of the cold war era and which has now needlessly cost the loss of four hundred (400) jobs in Pittsburgh.

Now, therefore, be it resolved, by the Council of the City of Pittsburgh that the Clerk be directed to send a copy of this resolution to the

President of the United States beseeching him to end the trade embargo against Cuba which has adversely impacted our local economy; and

Be it further resolved that the Council of the City of Pittsburgh hereby officially supports the efforts of Local 13550 of the Communication Workers of America and AT&T Officials in their efforts to normalize relations with Cuba.

Whereas, the Ancient Order of Hibernians helps fund scholarships for worthy students to the University of Notre Dame, Trinity College in Ireland and Carlow College here in Pittsburgh; and

Whereas, the Ancient Order of Hibernians also sends donations to the Columbian Missions to assist the Third

World underprivileged populations and is active in immigration law reforms; and

Whereas, the Ancient Order of Hibernians participates in and sponsors many social and cultural events designed to perpetuate the music, customs, traditions and rich spiritual history of Irish people all over the globe.

Now therefore, be it resolved, by the Council of the City of Pittsburgh that July 13th to July 20th, 1993 be declared "Ancient Order of Hibernians Week" in the City of Pittsburgh; and

Be it Further Resolved by the Council of the City of Pittsburgh, that the Ancient Order of Hibernians and the Ladies Ancient Order of Hibernians are hereby officially acknowledged and congratulated, on this, the occasion of their 87th Biennial State Convention.

No. 865. Whereas, the citizens of the City of Pittsburgh have suffered serious economic and other hardships from the rising costs of health care; and

Whereas, Fisher Scientific, a leading distributor of medical equipment, instruments and laboratory supplies, earns huge profits from the medical community, a factor that has contributed to health care costs rising at a rate significantly higher than the rate of inflation; and

Whereas, despite their huge profits, Fisher Scientific demanded that their distribution plant employees in Springfield, New Jersey pay 450% more in the way of employee contributions for the health insurance premiums or go out on strike; and

Whereas, after rejecting a lower-cost alternative health insurance program presented by the International Brotherhood of Teamsters which would have saved the company \$600,000.00 over three (3) years, Fisher Scientific permanently replaced 77 long-service, experienced employees.

Now Therefore, Be It Resolved, that the Council of the City of Pittsburgh hereby encourages all City departments, authorities and agencies that buy medical and laboratory supplies to seek alternative sources to Fisher Scientific products wherever

it is possible and in accordance with the law; and

Be It Further Resolved that the Council of the City of Pittsburgh directs the City Clerk to send a copy of this resolution to Fisher Scientific informing them that their action of permanently replacing long-term employees violates acceptable labor relations standards, and that the City of Pittsburgh will give preference to alternative suppliers until the Springfield, N.J. - F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.
- B. The proposed facility will not be injurious to the use and enjoyment of property in the immediate vicinity. The design of the new structure has appropriately addressed impacts on adjacent properties and the public street, through substantial landscaping and an architectural design that is compatible with the surrounding structures and is far more contextual with the surrounding buildings than the existing structure on the site.
- C. The proposal will not affect the orderly development of the surrounding property. The property upon which the proposed building will be built is currently a surface parking lot and a structure with similar use.
- D. Utilities and other facilities have been found to have adequate capacity for the proposed project.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The establishment, maintenance, location and operation of the proposed use will not be detrimental or endanger public health, safety, comfort or general welfare. The proposed facility is on a site currently used for similar purposes and is completely surrounded by University uses.
- E. Vehicular egress and ingress for this project does not represent a substantial increase over the volumes which currently exist during the peak hours. Off-peak traffic generated by the auditorium will not generate unacceptable traffic congestion. The traffic study has determined that the project, with the proposed mitigation and future mitigation to be carried out by the City in conjunction with the applicant, will not

negatively impact traffic congestion in the area.

- F. In all other respects, the proposed facility does conform to all other applicable regulations of the "I - C" Institutional-Civic District which permits an educational facility as a conditional use.

Section 3. Under the provisions of Section 993.01(a)A(9) of the Pittsburgh Code, approval is hereby granted to Carnegie Mellon University for authorization to raze the 94,000 sq. ft. student activities building (Skibo Hall) and erect a 240,000 sq. ft. University Center to contain student activities spaces, a recreational athletic center, and a 450-seat auditorium on the Carnegie Mellon University campus located at 5000 Forbes Avenue on property zoned "I-C" Institutional-Civic District, 14th Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 627 and accompanying drawings filed by Michael Dennis and UDA Architects, and supporting documentation submitted by Carnegie Mellon University and Wilbur Smith Associates, which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, with the following conditions to be fulfilled prior to the issuance of a Certificate of Occupancy for the University Center:

- A. That a final Transportation Management Plan is submitted for

staff review and reviewed and approved by the City Planning Commission.

- B. That the University provide, at their cost, appropriate mitigation to address traffic congestion at intersections identified in the traffic study by Wilbur Smith Associates and for intersections identified in further discussions with the City, according to the level of impact which the University traffic impacts these intersections.

No. 887. Whereas, thirty (30)

years ago on August 28, 1963, hundreds of thousands of Americans, including thousands of Pittsburghers, gathered together and marched in an historic demonstration in Washington, D.C., as part of a nonviolent nationwide "Coalition of Conscience", to demand an end to racial segregation and discrimination by law; and

Whereas, that historic and awe inspiring event of August 28, 1963 was forever immortalized by Dr. Martin Luther King, Jr.'s "I Have A Dream" speech; and

Whereas, thanks to the persistence, courage and hard work of Dr. Martin Luther King, Jr., those hundreds of thousands of Americans who demonstrated in Washington, D.C. on August 28, 1963, and thousands of other brave Americans active in the civil rights movement, some of whom gave their lives in the struggle for justice and equality, Congress passed and the President signed both the Civil Rights Act of 1964 and the Voting Rights Act of 1965; and

Whereas, twenty (20) years after that historic occasion, on August 27, 1983, nearly half a million Americans joined together in a "New Coalition of Conscience" to stage a 20th anniversary March on Washington demanding sanctions against the racist apartheid government of South Africa and a National Holiday in honor of Dr. Martin Luther King, Jr.; and

Whereas, within three years of the 1983 March, legislation imposing economic

sanctions against South Africa and creating a National Holiday in honor of Dr. Martin Luther King, Jr. were both signed into law; and

Whereas, today, in 1993, as we have entered the post Cold War era, elected a new Congress and a new President, there is a more urgent need than ever for a "New Coalition of Conscience" to be heard and heeded in our nation to address the ever deepening crises we face in the areas of Jobs, Justice and Peace for All Americans; and

Whereas, Mrs. Coretta Scott King and Rev. Joseph Lowery are convening the "New Coalition of Conscience" comprised of over 200 civil and human rights, religious, labor, women's, youth, environmental, peace and service organizations which is sponsoring a 30th Anniversary March on Washington set for Saturday August 28, 1993; and

Whereas, recognizing that many of the young pioneers who must lead us into the 21st Century were not even born in 1963 when their forerunners rallied at the Lincoln Memorial, the conveners of the 30th Anniversary March have established as a sub-theme of the March our "Passing of the Torch" to a new generation of leaders of conscience in our nation and are asking all those who marched in 1963 to return to Washington on August 28th of this year, bringing with them their offspring to formally pass the mantle of leadership of the "New Coalition of Conscience" to the next generation.

Now, therefore, be it

resolved, that the Council of the City of Pittsburgh hereby officially supports and endorses the goals and efforts of the "New Coalition of Conscience" and the 30th Anniversary March on Washington planned for August 28th 1993 and encourages our residents to attend; and

Be it further resolved, by the Council of the City of Pittsburgh, that the week of July 19th - July 25th, 1993, be and hereby is proclaimed to be "Jobs, Justice and Peace Week" in the City of Pittsburgh.

No. 888. RESOLUTION approving a conditional use exception under Section 993.01(a)A(7) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to the City of Pittsburgh, Department of Engineering and Construction, for authorization to construct a one-story Emergency Medical Services facility at 4740 Mossfield Boulevard, with parking to accommodate seven automobiles, on property zoned "R3" Multiple-Family Residence District, 10th Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed Emergency Medical Services facility located at 4740 Mossfield Boulevard;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed Emergency Medical Services facility located at 4740 Mossfield Boulevard has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and
- C. That the establishment of the proposed use will impede the normal and orderly development and

improvement of surrounding property for uses permitted in that district; and

- D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and
- E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and
- F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The establishment, maintenance, location and operation of the proposed use will not be detrimental to or endanger public health, safety, comfort or general welfare. The proposed facility is supportive of the surrounding uses and the size of the structure is compatible with surrounding structures.
- B. The proposed EMS station will not be injurious to the use and enjoyment of property in the immediate vicinity. Residential property values should not be affected by the

proposed project and may actually benefit from the adjacency to the facility.

- C. The proposal will not affect the orderly development of the surrounding property. The property upon which the proposed building will be built is large enough to permit truck maneuvering and parking on site and will not negatively impact adjacent properties.
- D. Utilities and other facilities have been found to have adequate capacity for the proposed project.
- E. Since all truck maneuvering is on-site and vehicles are able to pull straight into the building and maneuver on site, traffic should not be worsened by the facility. In addition, since the number of trips made by the medical vehicles is infrequent, there will be little additional traffic to cause congestion on the surrounding streets. The amount of traffic generated by employees of the facility is minimal.
- F. In all other respects, the proposed facility does conform to all other applicable regulations of the R3 district.

Section 3. Under the provisions of Section 993.01(a)A(7) of the Pittsburgh Code, approval is hereby granted to the City of Pittsburgh, Department of Engineering and Construction, for authorization to construct a one-story Emergency Medical Services facility at

4740 Mossfield Boulevard, with parking to accommodate seven automobiles, on property zoned "R3" Multiple-Family Residence District, 10th Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 634, and accompanying drawings filed by the Department of Engineering and Construction and entitled "EMS Station No. 6", which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto.

No. 944. RESOLUTION Approving a conditional use exception under Section 993.01(a)A(9) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to the Community College of Allegheny County for authorization to construct a three-story, 50,000 sq. ft. Student Center to be located on the south side of the

800 block of Ridge Avenue between English Way to the west and Chapel Way to the east on property zoned "R5" Multiple-Family Residence District, 22nd Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed Student Center for the Community College of Allegheny County on its campus located at 800 Ridge Avenue;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed Student Center for the Community College of Allegheny County located on its campus at 800 Ridge Avenue has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public

health, safety, morals, comfort or general welfare; and

B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and

C. That the establishment of the proposed use will impede the normal and orderly development and improvement of surrounding property for uses permitted in that district; and

D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and

E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and

F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

A. The establishment, maintenance, location and operation of the proposed

use will not be detrimental to or endanger public health, safety, comfort or general welfare. The proposed facility is on a site currently used for college purposes and is completely surrounded by college property.

- B. The proposed facility will not be injurious to the use and enjoyment of property in the immediate vicinity. The design of the new structure has appropriately addressed impacts on adjacent properties and the public street through landscaping and an architectural design which is compatible with the surrounding structures and is contextual with both the older residential buildings and the newer institutional buildings on the site.
- C. The proposal will not affect the orderly development of the surrounding property. The property upon which the proposed building will be built is currently a surface parking lot used for college purposes.
- D. Utilities and other facilities have been found to have adequate capacity for the proposed project.
- E. Vehicular egress and ingress for this project does not represent an increase over the volumes which currently exist because the project does not represent an increase in student enrollment or staff. Off-peak traffic

generated by the auditorium will not generate unacceptable traffic congestion. The traffic study has determined that the proposed mitigation to be carried out jointly by the college and the City will mitigate traffic congestion at the two intersections identified in the study which require mitigation. In addition, the Parking Management Plan, which is incorporated as part of this conditional use application, will mitigate the parking impacts of the institution and will address future potential impacts.

- F. In all other aspects, the proposed facility does conform to all other applicable regulations of the R5 district which permits an educational facility as a conditional use.

Section 3. Under the provisions of Section 993.01(a)A(9) of the Pittsburgh Code, approval is hereby granted to the Community College of Allegheny County for authorization to construct a three-story, 50,000 sq. ft. Student Center on its campus at 800 Ridge Avenue on property zoned "R5" Multiple-Family Residence District, 22nd Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 631 and accompanying drawings filed by DRS Hundley Kling Gmitter, Inc., architects, and supporting documentation submitted by the Community College of Allegheny County and TRANS Associates,

including the Parking Management Plan, which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, subject to the following conditions:

1. That prior to the issuance of a Building Permit:
 - a. The applicant shall provide appropriate mitigation to address traffic congestion at intersections identified in the traffic study by TRANS Associates, and after review and approval of the appropriate mitigation measures by the Department of Engineering and Construction;
 - b. The applicant submit a report to the City Planning Commission outlining a plan to address any future parking deficit which may occur through a reduction in demand for parking spaces, through means such as a parking fee system, a subsidy for transit passes, a combination of these, or other demand reduction as may be necessary to meet future parking deficits; and
 - c. The City Planning Commission Review and approve the final details of the building elevations and landscaping plan.
2. That, by the end of the calendar year 1993, the applicant submit a report to the City Planning Commission addressing the utilization of the leased

Ridge Avenue parking lot and, if the lot is found to average less than 80 percent occupancy during peak times as defined in the TRANS study, the report will address ways to increase utilization of this lot.

3. That prior to the issuance of a Certificate of Occupancy, the applicant submit a report to the City Planning Commission which evaluates the effectiveness of the Parking Management Plan and analyzes current parking demand to determine if additional measures are needed to address parking impacts, and that the applicant address any parking deficit which may be found through additional demand reduction strategies.
4. That should the lease for 355 parking spaces at 1130 Ridge Avenue be terminated for any reason, or should the lease not be renewed after ten years, the applicant shall provide sufficient parking to meet the demand otherwise being met by the parking spaces in the leased lot, either through additional leased parking spaces, or through the construction of on-site parking, or through other means approved by the City Planning Commission as a revision to this conditional use application.

No. 963. RESOLUTION APPROVING a conditional use exception under Section 993.01(a)A(7) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to the Port Authority of Allegheny County for authorization to construct a 279 sq. ft., one-story extension to the west side of the existing Monongahela Incline building, with other renovations, located at 8 Grandview Avenue on property zoned "S" Special District, 19th Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed Monongahela Incline building extension and

renovations located at 8 Grandview Avenue;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed Monongahela Incline building extension and renovations located at 8 Grandview Avenue have properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and

C. That the establishment of the proposed use will impede the normal and orderly development and improvement of surrounding property for uses permitted in that district; and

D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and

E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and

F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The establishment, maintenance, location and operation of the proposed use will not be detrimental to or endanger public health, safety, comfort or general welfare. In fact, the additions and renovations to the facility include a number of features to improve or protect public health, safety, comfort, and general welfare. These include upgrading of various mechanical and electrical systems, improvements to insure ADA

compliance, and circulation improvements.

- B. The proposed facility will not be injurious to the use and enjoyment of property in the immediate vicinity. The upper station was downsized, reducing the impact on views from the private property across Grandview Avenue and the public viewing areas. Improvements to the transit facility itself create more reliable access to the region's job center, the Golden Triangle, thus benefitting properties in the immediate vicinity.
- C. The proposal will not affect the orderly development of the surrounding property. The properties to the west and north of the upper station are publicly owned steep slopes. Development of the area is not desirable and thus would not be affected by this project. Properties to the south are largely developed and reinvestment in these properties would likely be encouraged by the proposed transit improvements. Property on the east would benefit from the improvements and would not be negatively affected by the extension which is entirely on the west side of the station.
- D. Utilities and other facilities have been found to have adequate capacity for the proposed project.
- E. Vehicular access on a daily basis occurs mostly

on the lower station. Pedestrian access is actually improved at the upper station.

- f. In all other respects, the proposed facility does conform to all other applicable regulations of the Special District which permits a government facility as a conditional use.

SECTION 3. Under the provisions of Section 993.01(a)A(7) of the Pittsburgh Code, approval is hereby granted to the Port Authority of Allegheny County for authorization to construct a 279 sq. ft., one-story extension to the west side of the existing Monongahela Incline building, with other renovations, located at 8 Grandview Avenue on property zoned "S" Special District, 19th Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 628 and accompanying drawings filed by Michael Baker and Associates, and supporting documentation submitted by the Port Authority of Allegheny County, which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, and with the following conditions:

- 1. That prior to the issuance of a building permit, City Planning staff review and approve construction drawings; and
- 2. That prior to issuance of a certificate of occupancy, the City Planning Commission review

and approval all landscaping, lighting and signage proposals.

SECTION 4. Any Resolution or Ordinance or part thereof, conflicting with the provisions of this Resolution is hereby repealed so far as the same effects this Resoltuion.

No. 964. RESOLUTION Approving a conditional use exception under Section 993.01(a)A(9) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to Duquesne University for authorization to construct a five-level, 200-space parking garage extension; a 55,000 sq. ft., four-level Science Center building; a 12,800 sq. ft., one-floor addition to the Rangos School of Health Sciences; a 5,000 sq. ft. addition to the top floor of the Utilities Building, and four entrance arches at major portals to the University campus located at 600 Forbes Avenue, on property zoned "I-C" Institutional-Civic District, 1st Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed additions to the campus of Duquesne University located at 600 Forbes Avenue;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed additions to the campus of Duquesne University located at 600 Forbes Avenue has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed uses will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed uses will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and
- C. That the establishment of the proposed uses will impede the normal and orderly development and

improvement of surrounding property for uses permitted in that district; and

- D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and
- E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and
- F. That the proposed uses will not, in all other respects, conform to the applicable regulations of the district in which they are located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The proposed facilities are on sites currently used for University purposes and are completely surrounded by University property.
- B. The design of the Science Center and the parking garage addition have appropriately addressed impacts on adjacent properties and public streets through landscaping and architectural design. The additions to the Rangos School of Health Sciences and the utilities building will also be compatible with existing university structures. The entrance

arches will add to the beauty and identification of the campus area.

- C. The proposed uses will be constructed on the university campus, an "I-C" Institutional-Civic District. They are part of the University's long range master plan and fit within the physical landscape of the campus. Therefore, construction of these uses will not affect the orderly development of the area.
- D. Utilities, access roads, and other facilities have been found to have adequate capacity for the proposed uses.
- E. The proposed garage addition will share common access driveways with the existing garage on Locust Street. Several traffic mitigation measures have been recommended for congested intersections along Forbes Avenue and Fifth Avenue, and they will be jointly implemented by both the University and the City.
- F. Since the proposed uses are surrounded on all sides by University property, no setbacks are required. In all other respects, the proposed uses conform to all other applicable regulations of the "I - C" Institutional-Civic District which permits a parking garage and educational facilities as conditional uses.

Section 3. Under the provisions of Section

993.01(a)A(9) of the Pittsburgh Code, approval is hereby granted to Duquesne University for authorization to construct a five-level, 200-space parking garage extension; a 55,000 sq. ft., four-level Science Center building; a 12,800 sq. ft., one-floor addition to the Rangos School of Health Sciences; a 5,000 sq. ft. addition to the top floor of the utilities building; and four entrance arches at major portals to the University campus located at 600 Forbes Avenue on property zoned "I-C" Institutional-Civic District, 1st Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 633 and accompanying drawings filed by Gerard Nagar Associates, architects, and by Mulach Parking Structures Corporation which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, subject to the following conditions:

1. That prior to the issuance of a building permit for the University Science Center and the one-floor additions to the Rangos School of Health Sciences and the utilities building, the following documents shall be reviewed and approved by the Planning Commission:
 - a. Final elevation drawings, floor plans, exterior signage plan, and type of external material for the Science Center building.
 - b. Final elevation drawings, floor plans, and exterior

signage plans for the one-floor additions to the Rangos School of Health Sciences and the utilities building.

2. That prior to the issuance of a building permit for the entrance arches, the following shall be provided for review and approval by the Department of City Planning and the Department of Engineering and Construction:
 - a. Final design details and specifications including foundation drawings and locations.
3. That prior to the issuance of a certificate of occupancy for the 200-space garage addition, the applicant shall submit the following for review and approval by the Planning Commission:
 - a. A plan and schedule for implementation of a final landscaping plan for Forbes Avenue.
4. That prior to the issuance of a certificate of occupancy for the 200-space garage addition, the applicant shall provide the following which shall be reviewed and approved by the Department of City Planning and the Department of Engineering and Construction:
 - a. A plan and schedule for design and implementation of the recommended traffic mitigation measures identified in the Traffic Study Report by Trans Associates, dated June

1993, subject to review and approval by the Department of Engineering and Construction.

- b. That on the specific issue of studying the impacts of implementing the recommended traffic mitigation measures on the Forbes Avenue and Fifth Avenue traffic signal interconnect systems, the City Planning Department, the Department of Engineering and Construction, and the applicant shall jointly determine the scope of such network analyses and the percentage of costs to be borne by the applicant.

WHEREAS, the property in question contains a significant Victorian mansion, which the City has in the past used for community and park purposes; and

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF PITTSBURGH AS FOLLOWS:

WHEREAS, the property in

question, including the mansion and the surrounding structure known as King's Folly, has received historic designation by the Pittsburgh City Council, Bill Number 1105 of 1992; and

WHEREAS, by indenture dated December 30, 1949, Robert B. King conveyed to the City of Pittsburgh all of his right, title and interest in the subject property excepting therein to himself a life estate in the property; and

WHEREAS, the deed transferring the subject property specifically requires the City, upon determination by the City that the cost of maintaining the building proves to be burdensome, to solicit proposals from nonprofit, cultural, and educational organizations to use the building upon assumption of the cost of maintenance; and

WHEREAS, in 1990 the City determined that the building subject to the indenture was and has been for some time a too severe financial burden to maintain and to bring said building into compliance with building and health code requirements; and

WHEREAS, the City requested proposals from nonprofit, cultural, and educational organizations, of which one formal proposal was submitted and at that time was rejected for insufficient information to evidence appropriate financial capability to maintain the premises; and

WHEREAS, the City has petitioned the Court of Common

Pleas of Allegheny County, Orphans Court Division, to remove any and all deed restrictions as contained in the Indenture to allow a sale of the building and a reasonable amount of the property surrounding the building; and

WHEREAS, the Court of Common Pleas of Allegheny County, Orphans Court Division has indicated its pending approval to remove the said restrictions subject to final negotiations involving the sale of the subject property from the City to Frank Brown and Maura Brown, prospective purchasers; and

Purchaser shall retain the right, if such public use is excessively detrimental to Purchaser, at Purchaser's own expense, to construct as new and alternative turnaround acceptable in design to the City of Pittsburgh, for public use accommodation.

B. All state and local transfer taxes shall be paid by the purchaser.

C. All proper closing expenses shall be paid by the purchaser.

D. Unless within ninety (90) days after approval of this Resolution and tender of deed, Frank Brown and Maura Brown shall file with the City Controller its duly executed Certificate of Acceptance of the provisions hereof and shall pay the \$150,000.00 purchase price, this

No. 1076. Approving a conditional use exception under Section 993.01(a)A(8) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to Magee-Women's Hospital for authorization to construct a five-level, 300,000 sq. ft. Ambulatory Care Center; a three-level, 365-space parking garage; and a new entry pavilion on the campus of Magee-Women's Hospital at 300 Halket Street on property zoned "I-C", Institutional-Civic District, 4th Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed Magee-Women's Hospital expansion located at 300 Halket Street;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed Magee-Women's Hospital expansion located at 300 Halket Street has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or

impair property values within the neighborhood; and

- C. That the establishment of the proposed use will impede the normal and orderly development and improvement of surrounding property for uses permitted in that district; and
- D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and
- E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and
- F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The establishment, maintenance, location and operation of the proposed use will not be detrimental to or endanger public health, safety, comfort or general welfare. The proposed facility is on a site currently used for similar purposes and is completely surrounded by hospital uses. The facility as designed will improve

public access and circulation to and through the hospital by clarifying circulation patterns and entry points.

- B. The proposed facility will not be injurious to the use and enjoyment of property in the immediate vicinity. The new structure is essentially surrounded by other hospital buildings so that it will not directly abut neighboring properties. Through substantial landscaping and an architectural design which is compatible with the surrounding structures, the development is contextual with the surrounding buildings.
- C. The proposal will not affect the orderly development of the surrounding property. The property upon which the proposed building will be built is currently other hospital uses and a surface parking lot.
- D. Utilities and other facilities have been found to have adequate capacity for the proposed project.
- E. Vehicular egress and ingress for this project do not represent a substantial increase over the volumes which currently exist during the peak hours. The traffic study has determined that the project, with the agreed-to mitigation and future mitigation to be carried out by the City in conjunction with the applicant, will not negatively impact traffic

congestion in the area.

- F. In all other aspects, the proposed facility does conform to all other applicable regulations of the Institutional-Civic District which permits a medical facility as a conditional use.

Section 3. Under the provisions of Section 993.01(a)A(8) of the Pittsburgh Code, approval is hereby granted to Magee-Women's Hospital for authorization to construct a five-level, 300,000 sq. ft. Ambulatory Care Center; a three-level, 365-space parking garage; and a new entry pavilion on the campus of Magee-Women's Hospital at 300 Halket Street on property z o n e d " I - C " Institutional-Civic District, 4th Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 635 and accompanying drawings dated May 7, 1993 by Tsoi/Kobus & Associates, Inc., and supporting documentation submitted by Magee-Women's Hospital including the Transportation Management Plan and documentation submitted by Trans Associates, which are on file in the Office of the Zoning Administrator, Department of City Planning, and which are incorporated herein by reference hereto, with the following conditions:

1. That prior to the issuance of a building permit for the largest portion of the Ambulatory Care Center, a plan is implemented to provide for safe access and egress to the former Isaly's lot, which does not require traffic to

turn left into the lot, nor require traffic to circulate through residential neighborhoods to achieve a right turn into the lot.

2. That prior to the issuance of a Certificate of Occupancy for the Ambulatory Care Center:
  - a. A final Transportation Management Plan is submitted for staff review and reviewed and approved by the City Planning Commission;
  - b. The hospital submit a Loading Management Plan for review and approval by the City Planning Commission;

No. 1087. WHEREAS, Sickle Cell Disease is an inherited disease that affects the red blood cells. Rather than being round in shape, many of the red blood cells become sickle or moon shaped when they release oxygen to the tissues. When they are sickle shaped, the blood cell are fragile and rigid, making it hard for them to pass through blood vessels. They tend to break down more rapidly than the body can replace them.

WHEREAS, the anemic and obstruction of blood flow

account for most of the health problems that individuals with this disease face every day of their lives. The most common and disturbing feature of the disease is the occurrence of pain attacks from the plugging of blood vessels. These attacks are unpredictable and vary in duration and severity. Some pain attacks necessitate hospitalization, blood transfusions and administering pain medications.

WHEREAS, Sickle Cell Disease was first discovered in 1910, a cure has not been found. Major strides in preventing the early deaths of children with Sickle Cell Disease have occurred in the past ten years, with newborns who have been diagnosed with the disease being given penicillin.

WHEREAS, Sickle Cell Disease affects all aspects of the patient's life. The recurrent and unpredictable nature of the disease can adversely affect both school and work performance. Support groups for patients and parents of children with Sickle Cell Disease are a necessary part of treatment of this chronic disease.

WHEREAS, September has been named "National Sickle Cell Month" in an effort to inform the public about this disease which affects over 25,000 Black Americans. Due to lack of information many Sickle Cell trait carriers are unaware that they carry the disease. Screening programs are available nationwide and many of the states have adopted Sickle Cell screening as part of their state's

mandatory newborn screening programs. Pennsylvania will add mandatory Sickie Cell screening within the next year.

WHEREAS, The Sickie Cell Program at Children's Hospital has provided medical care to children with Sickie Cell Disease since the early 1970's. At present, nearly 160 children are enrolled in the Sickie Cell Program at Children's Hospital.

NOW, THEREFORE, BE IT RESOLVED, that the Council of the City of Pittsburgh hereby declares Friday, September 24, 1993 as "Children's Hospital Sickie Cell Program Day" in the City of Pittsburgh.

RESOLUTION approving a conditional use exception under Section 993.01(a)A(33) of the Pittsburgh Code, Title Nine, Zoning, Article V, Chapter 993, to Greenfield Terrace Apartments, Inc., for authorization to construct a six-story structure with 40 units of housing for the elderly at 3908 Lydia Street and with parking to accommodate 8 automobiles on property zoned "R4" Multiple-Family Residence District, 15th Ward.

WHEREAS, the Planning Commission of the City of Pittsburgh has made certain findings with regard to the conditional use application for the proposed housing for the elderly development located at 3908 Lydia Street;

WHEREAS, the Planning Commission of the City of Pittsburgh has recommended approval of this application for conditional use; and

WHEREAS, City Council has reviewed the record of the Planning Commission and herewith adopts the findings and recommendation of the Planning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

Section 1. Upon a review of the record as provided by the Planning Commission of the City of Pittsburgh, it is herewith affirmed that the proposed housing for the elderly development located at 3908 Lydia Street has properly met the Standards as provided in the Pittsburgh Code, Section 993.01(a)(D), and none of the following findings was made:

- A. That the establishment, maintenance, location and operation of the proposed use will be detrimental to or endanger the public health, safety, morals, comfort or general welfare; and
- B. That the proposed use will be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes permitted, nor substantially diminish or impair property values within the neighborhood; and
- C. That the establishment of the proposed use will impede the normal and orderly development and improvement of surrounding property for uses permitted in that district; and
- D. That adequate utilities, access roads, drainage and other necessary facilities have not been or will not be provided; and

- E. That adequate measures have not been or will not be taken to provide ingress and egress designated so as to minimize traffic congestion in the public streets; and
- F. That the proposed use will not, in all other respects, conform to the applicable regulations of the district in which it is located.

Section 2. It is further stated that the following findings of the Planning Commission are herewith adopted:

- A. The proposal is reasonable in both size and design and is compatible with the surrounding residential environment. Vehicular and pedestrian traffic will be easily accommodated with improvements to Alger and Raff Streets.
- B. The proposed use and structure form a compatible and harmonious relationship with other surrounding buildings and afford reasonable protection to immediately adjacent properties surrounding the site, and proposed setbacks are generally similar to the setbacks of structures in the general vicinity. The presence of existing and proposed landscaping enables the new building to fit in with the existing neighborhood character.
- C. The proposed use will not impede on the improvement of surrounding property as it is being developed on a relatively large site

located at the end of an improved street next to undeveloped publicly owned sloped land.

- D. Utilities and other facilities have been found to have adequate capacity for the proposed development.
- E. Street and sidewalk improvements will be made in order to accommodate the proposed development, and the amount of traffic generated by this facility is minimal.
- F. The proposed development complies with all requirements of the Zoning Ordinance for a new structure for housing for the elderly in an "R4" district.

Section 3. No. 25. AN ORDINANCE SUPPLEMENTING THE PITTSBURGH CODE TITLE FOUR - PUBLIC PLACES AND PROPERTY, ARTICLE XI - PARKS, BY ADDING NEW CHAPTER 480 - PLAYGROUND SAFETY - AND NEW SECTION 480.01, PLAYGROUND SAFETY ASSESSMENT AND SECTION 480.02, COMPREHENSIVE PLAYGROUND SAFETY PROGRAM.

Whereas, public playground safety hazards are a major cause of injuries to children nationally and in the City of Pittsburgh; and

Whereas, in the United States, more than 200,000 children per year are treated

in hospital emergency rooms for playground equipment related injuries and at least 17 children per year die from such injuries; and

Whereas, causes of injury and death on playgrounds include falls on hard surfaces, strangulation, impact with moving equipment, sharp edges, protrusions, pinch points, and equipment failures or tipovers; and

Whereas, many public playgrounds and pieces of play equipment in the City of Pittsburgh present hazards for the children who play on them because some equipment is dangerous or in disrepair and safety surfacing is not in place; and

Whereas, many public playgrounds in the City of Pittsburgh contain playground equipment and surfaces which do not comply with national safety standards established by the United States Consumer Product Safety Commission and the Consumer Federation of America; and

Whereas, because of these safety hazards and the fact that public safety is the greatest responsibility of City government, the City of Pittsburgh must conduct a comprehensive hazard analysis of each play area and piece of equipment; implement a comprehensive playground safety program based on national safety standards; and provide for a regular schedule of maintenance and inspection of all playground equipment by trained personnel.

THE COUNCIL OF THE CITY OF PITTSBURGH HEREBY ENACTS AS

FOLLOWS:

SECTION 1. This Pittsburgh Code is hereby supplemented by adding a new Chapter 480, Playground Safety, and new Section 480.01, Playground Safety Assessment, and Section 480.2, Comprehensive Playground Safety Program as follows:

#### Section 480.1 PLAYGROUND SAFETY ASSESSMENT

(a) Comprehensive Audit and Hazard Analysis. The Department of Public Works, in consultation with the Department of Parks and Recreation, and the Department of Engineering and Construction shall conduct a Comprehensive Audit and Hazard Analysis of each and every play area and piece of play equipment designed, constructed, owned, operated or maintained by the City of Pittsburgh or its agents. The Comprehensive Audit and Hazard Analysis shall be performed as described in Evaluating and Improving Playground Safety: A Playground Inventory and Assessment System (Morrison and DeFrancesco, 1993). The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall report the results of the Comprehensive Audit and Hazard Analysis to the Mayor and City Council within six (6) months of the effective date of this Ordinance, and shall conduct a Comprehensive Audit and Hazard Analysis and report to the Mayor and City Council every five (5) years thereafter.

(b) Comprehensive

Playground Safety Program. The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction shall develop a Comprehensive Playground Safety Program based on the results of the Comprehensive Audit and Hazard Analysis and devised in accordance with Section 480.3 of this Ordinance and Evaluating and Improving Playground Safety: A Playground Inventory and Assessment System (Morrison and DeFrancesco, 1993).

Section 480.2  
COMPREHENSIVE PLAYGROUND  
SAFETY PROGRAM.

(a) Comprehensive Playground Safety Program. Within one year of the effective date of this Ordinance, the Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall develop a Comprehensive Playground Safety Program which shall include, but not be limited to, the items below. This Comprehensive Playground Safety Program shall be submitted to the Mayor and City Council within thirty (30) days of its completion.

(b) Immediate Repair, Replacement or Removal of Major Hazards. The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall immediately repair, replace or remove any and all equipment presenting major hazards as

identified by the Comprehensive Audit and Hazard Analysis. Equipment that presents major hazards includes, but is not limited to, entanglement hazards, entrapment hazards, hard-hitting swings, and unstable equipment. The Department must submit to City Council for its review a list of playground equipment it intends to remove prior to the time of removal.

(c) Installation of Safety Surfacing in Existing Playgrounds.

- (1) Fall hazards created by inadequate surfaces on play areas must be addressed expeditiously. Inadequate surfaces include, but are not limited to, surfaces consisting of asphalt, cement, grass and hard dirt. The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall establish a timetable for the installation of protective safety surfacing to be placed under and around each piece of playground equipment and each play structure in accordance with at least the national safety standards established in the United States Consumer Product Safety Commission

Handbook for Public Playground Safety (CPSC, 1991). This timetable for the installation of protective safety surfacing shall be submitted to the Mayor and City Council within one year of the effective date of this Ordinance.

- (2) The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall conduct and complete within six months of the effective date of this Ordinance, a study calculating the feasibility and cost effectiveness of installing and maintaining loose-fill surfacing materials, including, but not limited to sand, uniform wood chips, wood mulch, and pea gravel as described in Appendix D of the United States Consumer Product Safety Commission's Handbook for Public Playground Safety (CPSC, 1991). While rubber matting is the preferable safety surface because it provides both protection from falls and accessibility to children and adults with disabilities, the study shall determine the feasibility of installing loose-fill safety surfacing until economic conditions permit installation of rubber matting surfacing in each and every public play area in the City of Pittsburgh.

(d) Less Serious Hazards in Existing Playgrounds. The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall establish a timetable for the removal, repair, or replacement of any and all equipment presenting hazards classified as less serious as identified by the Comprehensive Audit and Hazard Analysis. Such timetable must ensure that the less serious hazards are systematically addressed.

(e) New Or Renovated Playgrounds. Any new playground or play area designed, constructed, owned, operated or maintained by the City or its agents, or any single unit or play structure that undergoes renovation in an existing playground or play area shall conform to at least the safety and design specifications of the United States Consumer Product Safety Commission's Handbook for Public Playground Safety (CPSC, 1991) and the height specifications established in Section 4.1.5 of the Consumer Federation of America report entitled Report and Model Law on Public Play Equipment and Areas (Morrison and Fise, 1992). If the playground or play area will be used by more than one age group the lower height requirement will apply. Any new playground or play area designed, constructed, owned, operated or maintained by the City or its agents, or any existing playground or play area that undergoes renovation shall include the installation of safety surfacing under and around all the playground

equipment, that at least conforms to the safety and design specifications of the United States Consumer Product Safety Commission's Handbook for Public Playground Safety (CPSC, 1991).

(f) Inspection and Maintenance. The Department of Public Works, in consultation with the Department of Parks and Recreation and the Department of Engineering and Construction, shall develop a plan and implement a regular schedule of inspection and maintenance conducted by trained personnel, including prompt repair or removal of hazards, for each play area and piece of play equipment owned, designed, constructed, operated or maintained by the City or its agents. The schedule shall be based at least upon the safety and design specifications found in the United States Consumer Product Safety Commission's Handbook for Public Playground Safety (CPSC, 1991), the recommendations of the playground equipment manufacturers/designers, and the level of use and type of equipment. This plan and schedule shall be submitted to the Mayor and City Council within one year of the effective date of this Ordinance, and every year thereafter.

No. 30. AN ORDINANCE AMENDING AND SUPPLEMENTING the Pittsburgh Code, Title Six - Conduct, Article I - Regulated Rights and Actions, Chapter 607, Firearms and Other Weapons, by adding "Ammunition", placing prohibitions on assault weapons, and requiring identification for the purchase of ammunition.

THE COUNCIL OF THE CITY OF PITTSBURGH HEREBY ENACTS AS FOLLOWS:

SECTION 1. The Pittsburgh Code, Title Six - Conduct, Article I - Regulated Rights and Actions, Chapter 607, Firearms and Other Weapons, is hereby supplemented by the addition of the following new chapters and sections:

#### CHAPTER 607

Firearms, Ammunition and Other Weapons

[ 607.01 DEFINITIONS ]

#### 607.01 FINDINGS AND PURPOSE

The Council of the City of Pittsburgh does hereby find that:

(a) Under the laws of the Commonwealth of Pennsylvania, personal possession of weapons that have common lawful uses such as personal defense, hunting and other sporting uses, are permitted. However, possession of a variety of specified weapons and devices that have no ordinary defensive or sporting use is deemed to be a misdemeanor of the first degree. In addition, Pennsylvania utlaws all weapons and devices that in general "have no common lawful purpose."

(b) That the use of offensive weapons as implements of serious crime in Pittsburgh represents an increasing danger to the lives and safety of all the residents in the City. In particular, certain paramilitary assault weapons have become the weapons of choice of those engaged in drug trafficking and other enterprises of crime. The threat to the lives of Pittsburgh police officers and the public in general has become particularly acute as a result of this recent trend.

(c) That it would be useful for law enforcement purposes to supplement the prohibitions of Pennsylvania laws regarding offensive weapons by making

possession, manufacture, transfer, delivery, sale and use of such weapons a violation of the Pittsburgh City Code, subject to certain exceptions. In doing so the Council finds that it will be useful to specifically include within the ban a variety of weapons and devices not yet expressly listed as offensive weapons under Pennsylvania statute, though implicitly prohibited thereunder as having "no common lawful purpose." This list should include, but not be limited to, paramilitary assault weapons, and the ammunition and accessories for such weapons, as well as a variety of other devices that have created special problems for local law enforcement in recent years.
